STATE CLEARINGHOUSE

NEWSLETTER

March 1 through 15, 2000

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period March 1 through 15, 2000.

CLEARINGHOUSE CONTACTS

Please contact the Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613.
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available at http://ceres.ca.gov/planning/pub_org.html.

Federal Notices

Intergovernmental Review Notices (March 1 through 15, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: US Fish and Wildlife Service

CONTACT: Heather Bell or Jesse Wild

TELEPHONE: 916-414-6600

ADDRESS: Sacramento Fish and Wildlife Office
2800 Cottage Way, Room W-2605
Sacramento, CA 95825-1846

DESCRIPTION:

On March 24, 2000, the U.S. Fish and Wildlife Service will list the riparian brush rabbit and the riparian woodrat as endangered. These two subspecies are restricted to isolated riparian areas in San Joaquin and Stanislaus Counties in California. The announcement of the listing is in the February 23, 2000 *Federal Register*.

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission is reviewing the application for a non-capacity related amendment to license for the El Dorado Project to permit the planned restoration of the project diversion dam. This includes the replacement of the original dam, which was largely destroyed by flood waters, and the construction of a new, 9400-foot-long bypass tunnel from Mill Creek to Bull Creek, to replace damaged portions of the project's canal. The Commission intends to have a draft EA by March 2000. A Scoping Document 2 (SD2) is available on the web at <http://rimsweb1.ferc.fed.us/rims/> and serves as a guide to the issues and alternatives to be addressed in the EA. No response is required for the SD2.

ADDRESS: n/a

DESCRIPTION:

On February 4, 1997, the Federal Energy Regulatory Commission (Commission) issued a new license to Southern California Edison Company for the continued operation of Edison's Lee Vining Project No. 1388. Most of the project occupies lands of the Inyo National Forest. On December 8, 1999, the Forest Service submitted revised Section 4(e) conditions, which address streamflow requirements. Edison supports the revisions. The Commission is amending the license to incorporate the revised Section 4(e) conditions, lifting the stay of the pertinent conditions, and dismissing as moot Edison's request for rehearing of the order issuing new license.

CONTACT: Dianne Rodman

TELEPHONE: 202-219-2830

ADDRESS: Federal Energy Regulatory Commission
888 First Street N.E
Washington, D.C. 20426

DESCRIPTION:

The Southern California Edison Company (Edison) has made changes in the estimated 2-year completion period that it proposed in a July 29, 1999 letter concerning California Lytle Creek Project, Santa Ana River 1 and 2 Project, and Mill Creek 2/3 Project. The changes are in response

to FERC's concern that the completion period was too long. Edison has agreed to complete settlement negotiations for all three projects by January 31, 2001.

COMMENT BY: n/a

AGENCY: Federal Energy Regulatory Commission

CONTACT: Nan Allen

TELEPHONE: 202-219-2938

ADDRESS: n/a

DESCRIPTION:

The Federal Energy Regulatory Commission's (Commission) presence was requested at an El Dorado Irrigation District (District) Board of Director's meeting in March 2000 to present general information regarding the benefit of relicensing the El Dorado Project. Additional information for processing the license application was also requested. Because the District has already filed an application for a new license for the El Dorado Project, the Commission believes that these questions would be better answered through forums for public participation incorporated into the Commission's licensing process. Information on the licensing process is also available on the Commission's web site at www.ferc.fed.us.

AGENCY: Federal Energy Regulatory Commission

CONTACT: William Hetland

TELEPHONE: 530-622-4513

ADDRESS: 2890 Mosquito Road,
Placerville, California 95667

DESCRIPTION:

Take notice that a hydroelectric application has been filed with the Commission and is available for public inspection. The type of application is a new major license, which was filed on February 22, 2000 by the El Dorado Irrigation District. The location of the proposed project is on the South Fork of the American River and its tributaries in the counties of El Dorado, Alpine, and Amador. The proposed project consists of several hydroelectric facilities, which will be constructed on the South Fork of the American River. The application is not ready for environmental analysis at this time.

COMMENT BY: n/a**AGENCY:** Federal Energy Regulatory Commission**CONTACT:** Diana Shannon**TELEPHONE:** 202-208-7774**ADDRESS:** n/a**DESCRIPTION:**

Take notice that there will be a meeting of the Recreation subgroup of the Mokelumne Relicensing Collaborative on March 7, 2000 from 9:00a.m. to 4:00 p.m. at the PG&E offices, 2740 Gateway Oaks Drive, in Sacramento California.

COMMENT BY: n/a**AGENCY:** Federal Energy Regulatory Commission**CONTACT:** n/a**TELEPHONE:** n/a**ADDRESS:** n/a**DESCRIPTION:**

On December 14, 1999, James C. Katsekas, Zoes J. Dimos, and Clement Dam Development, Inc., licensees for the Clement Dam Hydroelectric Project, filed a joint application with Clement Dam Hydroelectric, LLC, for approval of a transfer of the project license from the current licensees to Clement Dam Hydroelectric, LLC. The Federal Energy Regulatory Commission approves the transfer of license.

	would extend along approximately 1,000 linear feet of the west bank of Windsor Creek and would consist of up to four parallel 72-inch diameter conduits or equivalent and inlet and outlet structures.		
2000032009	Altamont Water Treatment Plant Site Acquisition Project Alameda County Flood Control and Water Conservation District Livermore--Alameda As one of the ten active zones of the Alameda County Water Conservation and Flood Control District, Zone 7 has served the Alameda County portion of the Livermore-Amador Valley since 1957. The studies embodied in Zone 7's Water Supply Planning Study identified the potential need for a new water treatment plant in the Altamont Pass area north of Highway 580 and west of the South Bay Aqueduct. As one component of Zone 7's Water Supply Planning Program for the next five years, a new water treatment plant in this area was recommended to move Zone 7 toward a three-plant configuration that would provide treated water for municipal and industrial needs through Fiscal Year 2020. The current Water Supply System Five-Year Capital Improvement Program identified a water treatment plant in the Altamont Pass area as one of the projects Zone 7 needs to complete by Fiscal Year 2004/05 to maintain adequate treated water supplies to its customers.	nop	03/31/2000

2000032032	Zone File 99-091 Court Road 99W Replacement Yolo County Planning & Public Works Dept. Yolo--Yolo The preparation of a joint federal and state environmental assessment document for a proposed bridge project that involves replacement of the existing Cache Creek bridge built in 1921 on County Road 99W, which parallels U.S. Interstate 5 (I-5). (State Bridge No. 22C-022). The existing bridge approximately 178 feet long and 26 feet wide. The new bridge will be three-span, three-cell box culvert bridge supported by two circular concrete columns. The new bridge will be approximately 240 feet in length and 37.8 feet wide with a 50 ton capacity. The new bridge will be contained within a 60 foot right-of-way. The new bridge will be placed in approximately the same horizontal alignment as the existing bridge.	neg	04/05/2000
2000032036	Laguna Pointe Marketplace Planned Unit Development (PUD) Sacramento, City of Sacramento--Sacramento Entitlements to establish the Laguna Pointe Marketplace Planned Unit Development on 3.5 net acres including the development of a 2,420 square foot 6 pump gas station/ convenience market with a fast food restaurant and a 3,200 square foot drive-up service bay and car wash facility.	neg	04/05/2000
2000032029	Expansion of an Existing or Construction of New Regional Wastewater Treatment Plant Facility Crescent City Crescent City--Del Norte The existing WWTP is near capacity and has insufficient hydraulic and organic capacity to adequately treat current wastewater flows and organic loading. Additionally, a portion of the existing collection system is old and is subject to excessive rain-derived inflow and infiltration (RDII). During the rainy season, excessive RDII has caused sewer manhole overflows in some areas of the system as well as hydraulic overflows at the WWTP. These overflows are not permitted under the current NPDES permit for the WWTP. Del Norte County recently completed improvements to the collection system piping within CSA which has reduced the effects of RDII. The City is has initiated collection system improvements to reduce the effects of RDII. The City and the County of Del Norte are in the process of completing a Community Wastewater Conveyance and Treatment Feasibility Study. The purpose of the study is to evaluate the development of a long-term community wastewater management plan, which includes the possibility of placing new treatment and disposal facilities at other locations.	nop	04/05/2000

2000031034	Westminster Infrastructure Revitalization Plan, an Amendment to Commercial Redevelopment Project No. 1 Westminster, City of Westminster--Orange The Redevelopment Plan proposes to establish a new redevelopment plan area that will encompass 5,070 acres of the City of Westminster, approximately 77% of the City's 6,590 acre area.	nop	04/11/2000
2000031036	Costco Development Montclair, City of Montclair--San Bernardino The approximately 15-acre project is located between the I-10, Central Avenue, Palo Verde Street, and Carrillo Avenue in the City of Montclair, San Bernardino County, California. The property can be accessed by the Central Avenue off-ramp of the I-10 and various local streets. The site has been developed for retail use. A gas station, medical office building, gift shop, largely vacant commercial center, and vacant retail pad are located on the property. The former anchor tenant of the commercial center was Kmart. There is approximately 134,000 square feet of existing commercial space, that has been built since 1963. Costco expects to construct approximately 155,000 square feet of new commercial space. The 155,000 square foot project will replace the existing 134,000 square foot existing commercial space now located on the site. The resulting net increase in commercial area within the City will , therefore, be approximately 21,000 square feet.	nop	04/11/2000
2000031042	State Route 75 Class I Bicycle Facility Imperial Beach, City of Imperial Beach--San Diego The City of Imperial is proposing to construct a Class I Bicycle Facility spur along the east side of State Route 75 from the intersection of SR-75 and Boulevard Avenue to a point near the intersection of SR-75 and Rainbow Drive. The spur would extend the Bayshore Bike route approximately 2,584 feet, with 1,484 feet in the City of Coronado and 1,100 feet in the City of Imperial Beach. The spur will be separated from vehicular traffic on SR-75 using "k-rails," a concrete barrier, and from the adjacent salt pond using a cabling barrier. It should be noted that the concrete barrier is only required on 950 feet of the project's 2,458-foot total. The spur will also require the construction of retaining walls in the existing salt pond where necessary to establish a level grade and the minimum width of 12 feet for the bike path, and as needed to maintain the Class I rating of this facility.	nop	04/26/2000
2000032059	The Pedregal (TM99-1362) / Z99-09) El Dorado County Planning Department El Dorado--El Dorado Residential subdivision consisting of 108 single-family lots and Open Space Lots A, B, and C on a 101.80-acre site zoned Estate Residential Ten-Acres (RE-10) and designated High Density Residential (HDR) and Multi-Family Residential (MFR) On the GEneral Plan land use designation map. 2000034007	Salinas Valley Water Project Monterey County Monterey, Salinas--Monterey, San Luis Obispo The proposed action has been developed to provide for the long-term management and protection of groundwater resources in the Basin, and to achieve the objectives/needs of the SVWP. To achieve these objectives/needs, the proposed action would: (1) provide a source of water to the Basin by reoperating upstream reservoirs and capturing water via a surface diversion structure to provide water for agriculture; and (2) maintain present conservation release practices to recharge the groundwater basin. The following specific project components are being proposed: Stopping seawater intrusion; Providing adequate water supplies to meet current and future (year 2030) needs; and Hydrologically balancing the groundwater basin in the Salinas Valley.	nop	04/11/2000

2000038109	Transfer of coverage to El Dorado County APN 21-031-13 (Darrow) California Tahoe Conservancy --El Dorado Between a parcel of land in the Emerald Bay Hydrologic Area, South shore area of Lake Tahoe, on the west shore of Fallen Leaf Lake, undefined subdivision of El Dorado County.	noe	
2000038110	Transfer of coverage to El Dorado County APN 35-132-11 (Neubauer) California Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 168 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed.	noe	
2000038111	Transfer of coverage to El Dorado County APN 80-103-14 (Hosseini) California Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 333 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed.	noe	
2000038112	Hartnell College "Learning Resource Center " Hartnell College Salinas--Monterey The existing library was built in 1958 and was designed for print material only. The existing library cannot support currently expected library services such as universal on-line access to information, electronic-based library course offering, distance learning courses and increased access to knowledge and information resources outside of Hartnell College.	noe	
2000038114	Santa Clara CDF Ranger Unit Headquarters Replace Auto Shop Forestry And Fire Protection, Department of Morgan Hill--Santa Clara The proposed project consists of the construction of a 6,160 square feet automotive shop facility with a 5-bay working area, offices, restrooms, and each electrical lift capable of lifting 34,000 pounds. The project also includes a vehicle exhaust evacuation system, a separate area for properly vented metal fabrication and environmentally correct storage of automotive oils/greases with secondary containment. An area for environmentally safe parts cleaning with secondary containment will also be provided. The proposed automotive shop will have a truck tractor with a bulldozer storage/work bay, and storage areas.	noe	
2000038115	Antelope Forest Fire Station Replace Facility Forestry And Fire Protection, Department of Hollister--San Benito The project consists of the construction of an eight-person barracks, mess hall, a 300 square foot gal/oil storage building, a 150 square feet generator building; utilities; paves; landscaping and all appurtenances. The existing barracks and mess hall buildings will be demolished and removed from the site. Because the site has been heavily disturbed by human activities, there are no sensitive biological or cultural resources present. All work will be performed within the existing disturbed site. The proposed project is necessary because the existing	noe
